

MOLDING GUIDE

Enhance the appearance of your Dubeau hardwood flooring and living spaces with our coordinating moldings. These premium prefinished wood moldings are manufactured to harmonize the color of the hardwood floor, not to replicate its look or pattern. They are perfect to match your decor and blend with almost any other hardwood, tile, stone, vinyl or laminate flooring.

Length: Stair nosing is available in a length of 92" (2.336 mm). Reducer molding is available in a length of 84" (2.133 mm).

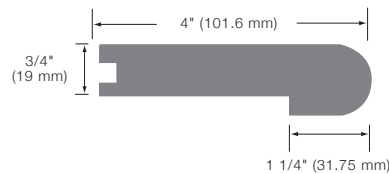

ROUND STAIR NOSING

Available in brushed or smooth texture.

The stair nosing is used to finish the edge of the hardwood floor where it meets a staircase. It limits the damage caused by the frequency of traffic and preserves the beauty of the stairs. It allows installation flush or with encroachment.

- Solid and Engineered : 3/4" (19 mm)

REDUCER

Available in brushed or smooth texture.

Reducer provides a natural transition between a hardwood floor and another type of flooring of a slightly lower height. It also creates a smooth finish against any vertical surface or where quarter round cannot be used.

- Solid and Engineered : 3/4" (19 mm)
